Hazardous Weather

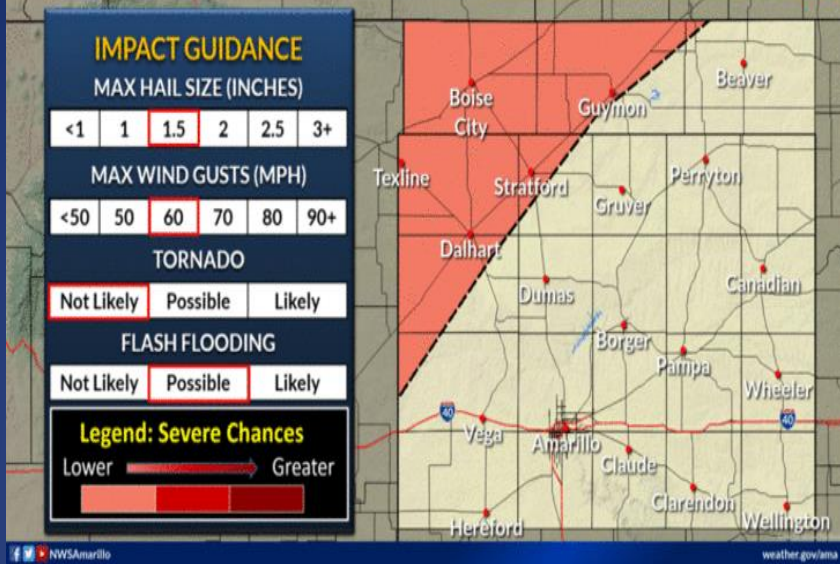

Hazardous Weather

Sunday's Severe Thunderstorm Potential - 4 pm to 7 pm

Storm Motion South at 15-20mph

Weather Forecast Office
Amarillo, TX
Issued Jul 04, 2021 4:03 AM CDT

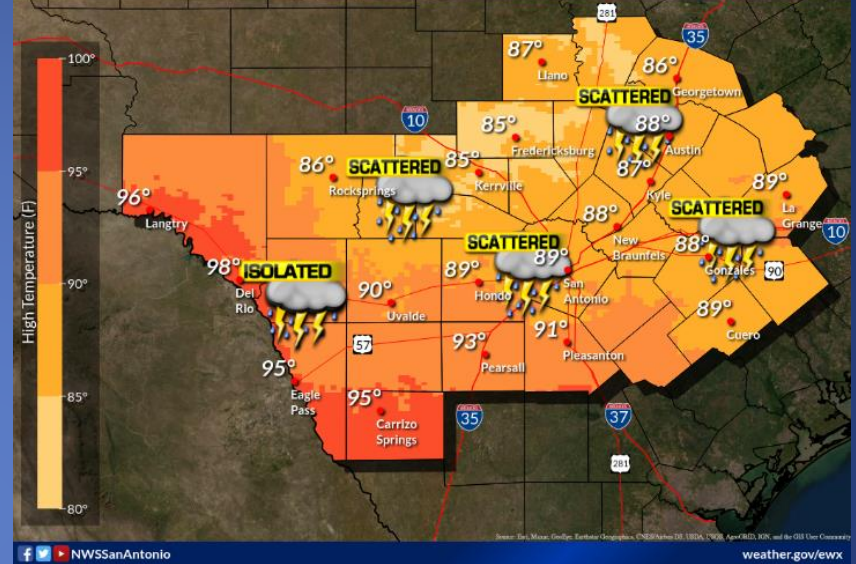

Independence Day will bring the potential for severe thunderstorms to the Panhandles, with damaging winds and large hail possible. Additionally, due to our recent rainfall, some localized flash flooding issues will be possible. Severe storm potential will mainly focus after 4pm through the early overnight hours.

Independence Day Forecast

Scattered Showers and Thunderstorms during the Day, Becoming Isolated After Sunset

Weather Forecast Office
Austin/San Antonio, TX
Issued Jul 04, 2021 5:27 AM CDT

Scattered showers and thunderstorms are forecast to affect the area today. In addition to a cloud to ground lightning threat, a few storms could produce locally heavy downpours leading to minor flooding in isolated spots. The coverage of showers and storms is forecast to decrease around sunset, with isolated coverage then possible during the late evening hours.

Hazardous Weather

Warmer for Independence Day

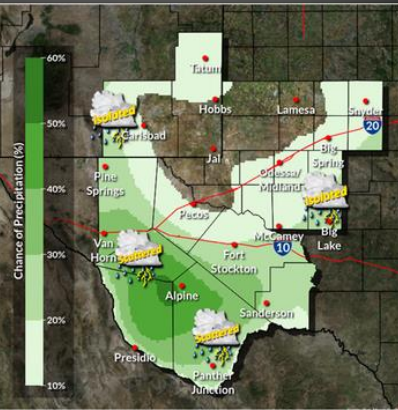

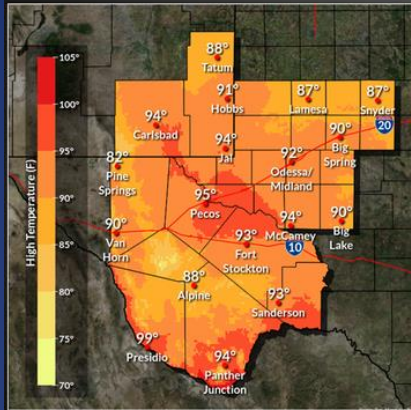

Weather Forecast Office
Midland/Odessa, TX
Issued July 4, 2021 4:19 AM CT

Thunderstorms possible this afternoon

Today's Forecast Highs

Afternoon Storm Chances

f t NWSMidland

weather.gov/maf

It will be noticeably warmer across the area today, with isolated to scattered thunderstorms possible this afternoon. The best chance for storms will be across the higher terrain and south of I-10. Heavy rain, flash flooding, and lightning are the main concerns. Stay safe!

Mild with More Storms Tonight

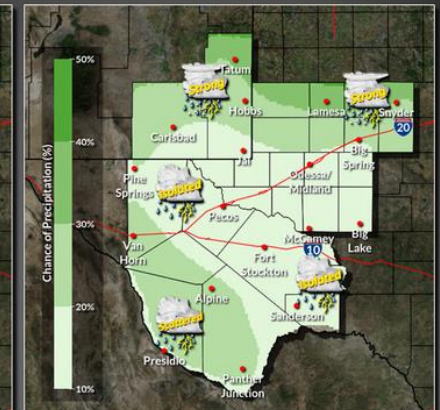

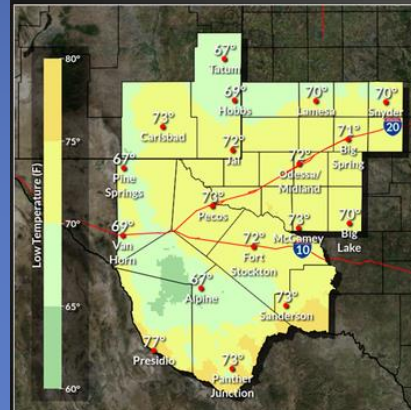

Weather Forecast Office
Midland/Odessa, TX
Issued July 4, 2021 4:25 AM CT

Some storms may be strong to severe across northern areas

Tonight's Forecast Lows

Tonight's Storm Chances

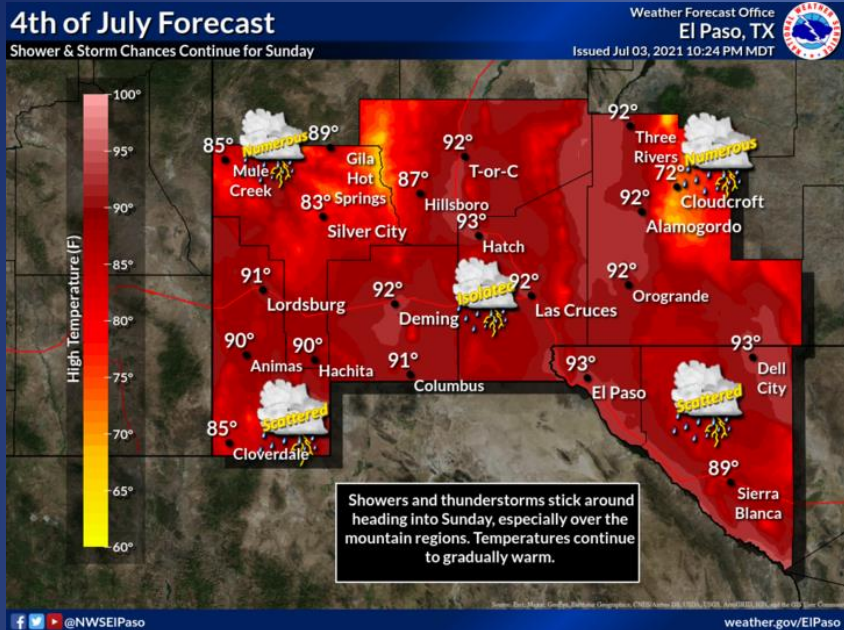

f t NWSMidland

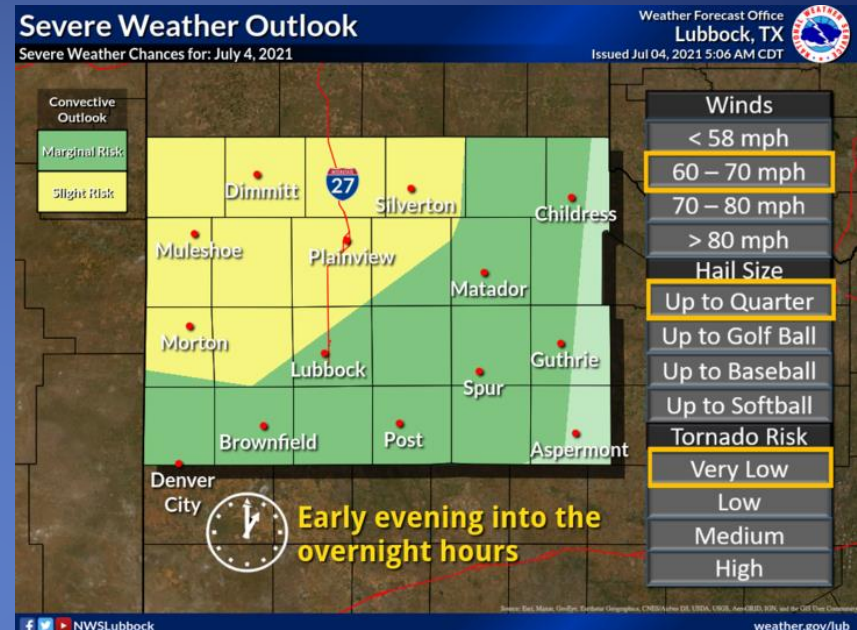

weather.gov/maf

Temperatures tonight will be mild, with continued storm chances across the region. Overnight into early Monday morning, strong to severe thunderstorms are possible across northern areas. Damaging winds, heavy rain, flash flooding, and lightning will be possible. Be prepared and stay aware!

Hazardous Weather

Scattered showers and storms persist into Sunday, especially over the Gila and Sacramento Mountains. Heavy rains could occur on top of the saturated ground, which could lead to flash flooding. The warming trend continues as we finish the holiday weekend.

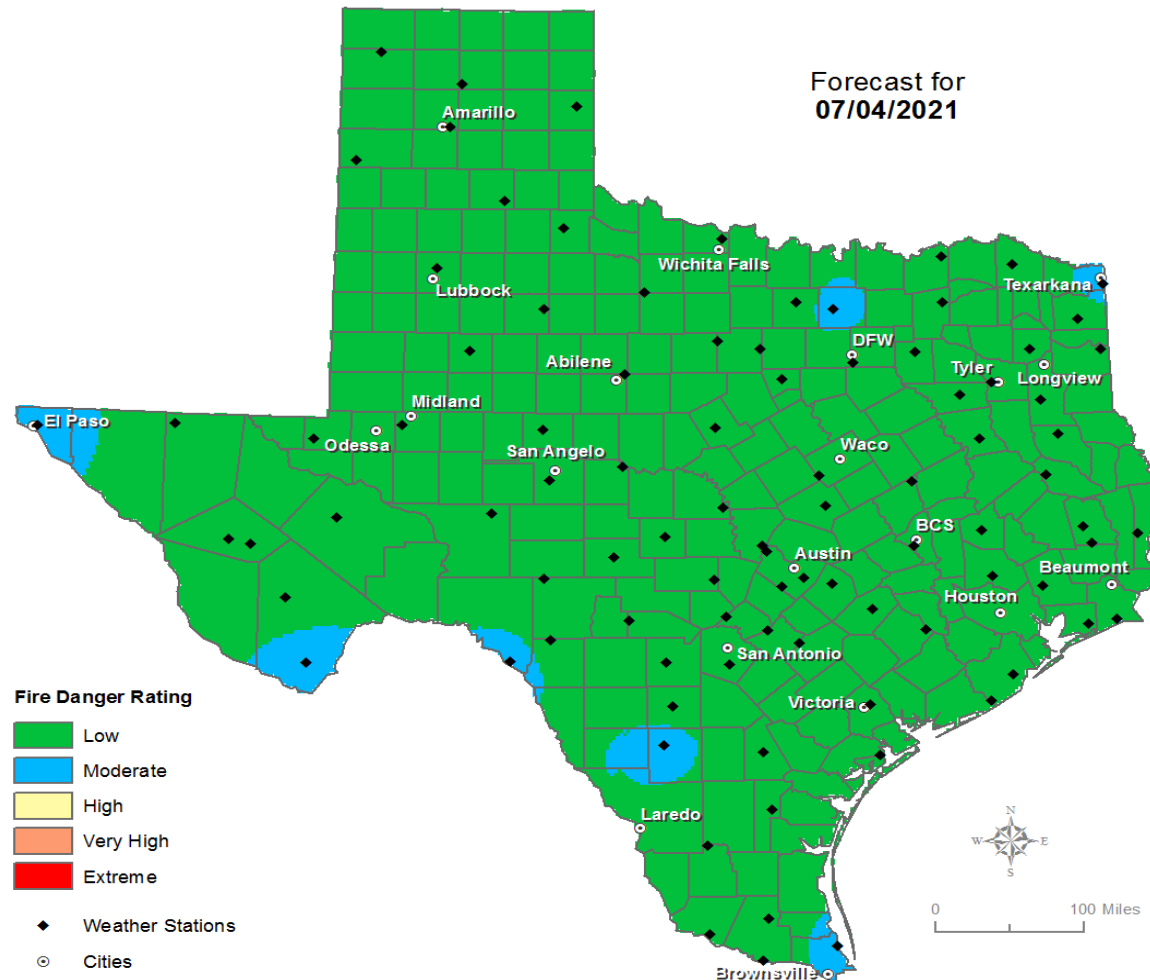

There is a Slight Risk of severe thunderstorms during the early evening and overnight hours of July 4th (Sunday evening into the wee hours of Monday). Damaging wind gusts to 70mph and hail to the size of quarters will be the main hazards, though localized flooding is also likely.
